Certifications

Many buyers look for specific industry certifications when making routing decisions or inviting pros to Preferred Professional Networks (PPNs). OnForce requires that all certifications be verified to ensure accuracy. OnForce adds new certifications regularly as they become available or are verifiable depending on the needs of work orders conducted through the Marketplace.

Add A Certification

To add a valid industry certification, select the appropriate certifying company (e.g., Microsoft or CompTIA) and the individual certification. Each certifying agency has specific instructions (which will appear below) in order to enable OnForce to verify a certification. Please follow the instructions carefully so that OnForce can verify submitted certifications as quickly as possible.

Please allow 2-3 business days for verification to be complete. You will be contacted directly if OnForce requires additional information in order to verify a submitted certification. Once a certification is verified it will appear on your public profile and on a buyer's work order routing page.

Add Another Certification

Your Certifications

You have already notified OnForce about the following certifications. Once we have verified the certification ID and other information that you have provided, we will mark the certification as verified, and it will appear on your Public Profile.

Delete	Company	Certification	Date Added	ID	Verified
<input type="checkbox"/>	OnForce	OnForce Platform 101	Apr 8 2007		Yes (Apr 9 2007)
<input type="checkbox"/>	OnForce	OnForce Platform 102	Apr 8 2007		Yes (Apr 9 2007)
<input type="checkbox"/>	Dell	Basic Wireless Technology	Apr 13 2007	472263	Yes (Apr 13 2007)
<input type="checkbox"/>	Dell	Dell DMS (Non-DSP) - Vista	Apr 13 2007	472263	Yes (Apr 13 2007)
<input type="checkbox"/>	Dell	Foundation 2007 Desktops	Apr 18 2007	472263	Yes (Apr 18 2007)
<input type="checkbox"/>	Dell	Foundation 2007 Portables	Apr 23 2007	472263	Yes (Apr 23 2007)
<input type="checkbox"/>	Dell	P1500 and S2500S2500N Printer	Apr 23 2007	472263	Yes (Apr 23 2007)

You can always add certifications later if you don't have the information handy at this time.
